

ZEN OF RECYCLING

SUSTAINABILITY MEETS ART

The designs in this book were created by talented members of the UI campus community. Each artist incorporated the theme of recycling into their unique design to celebrate RecycleMania, an annual event that helps increase recycling awareness.

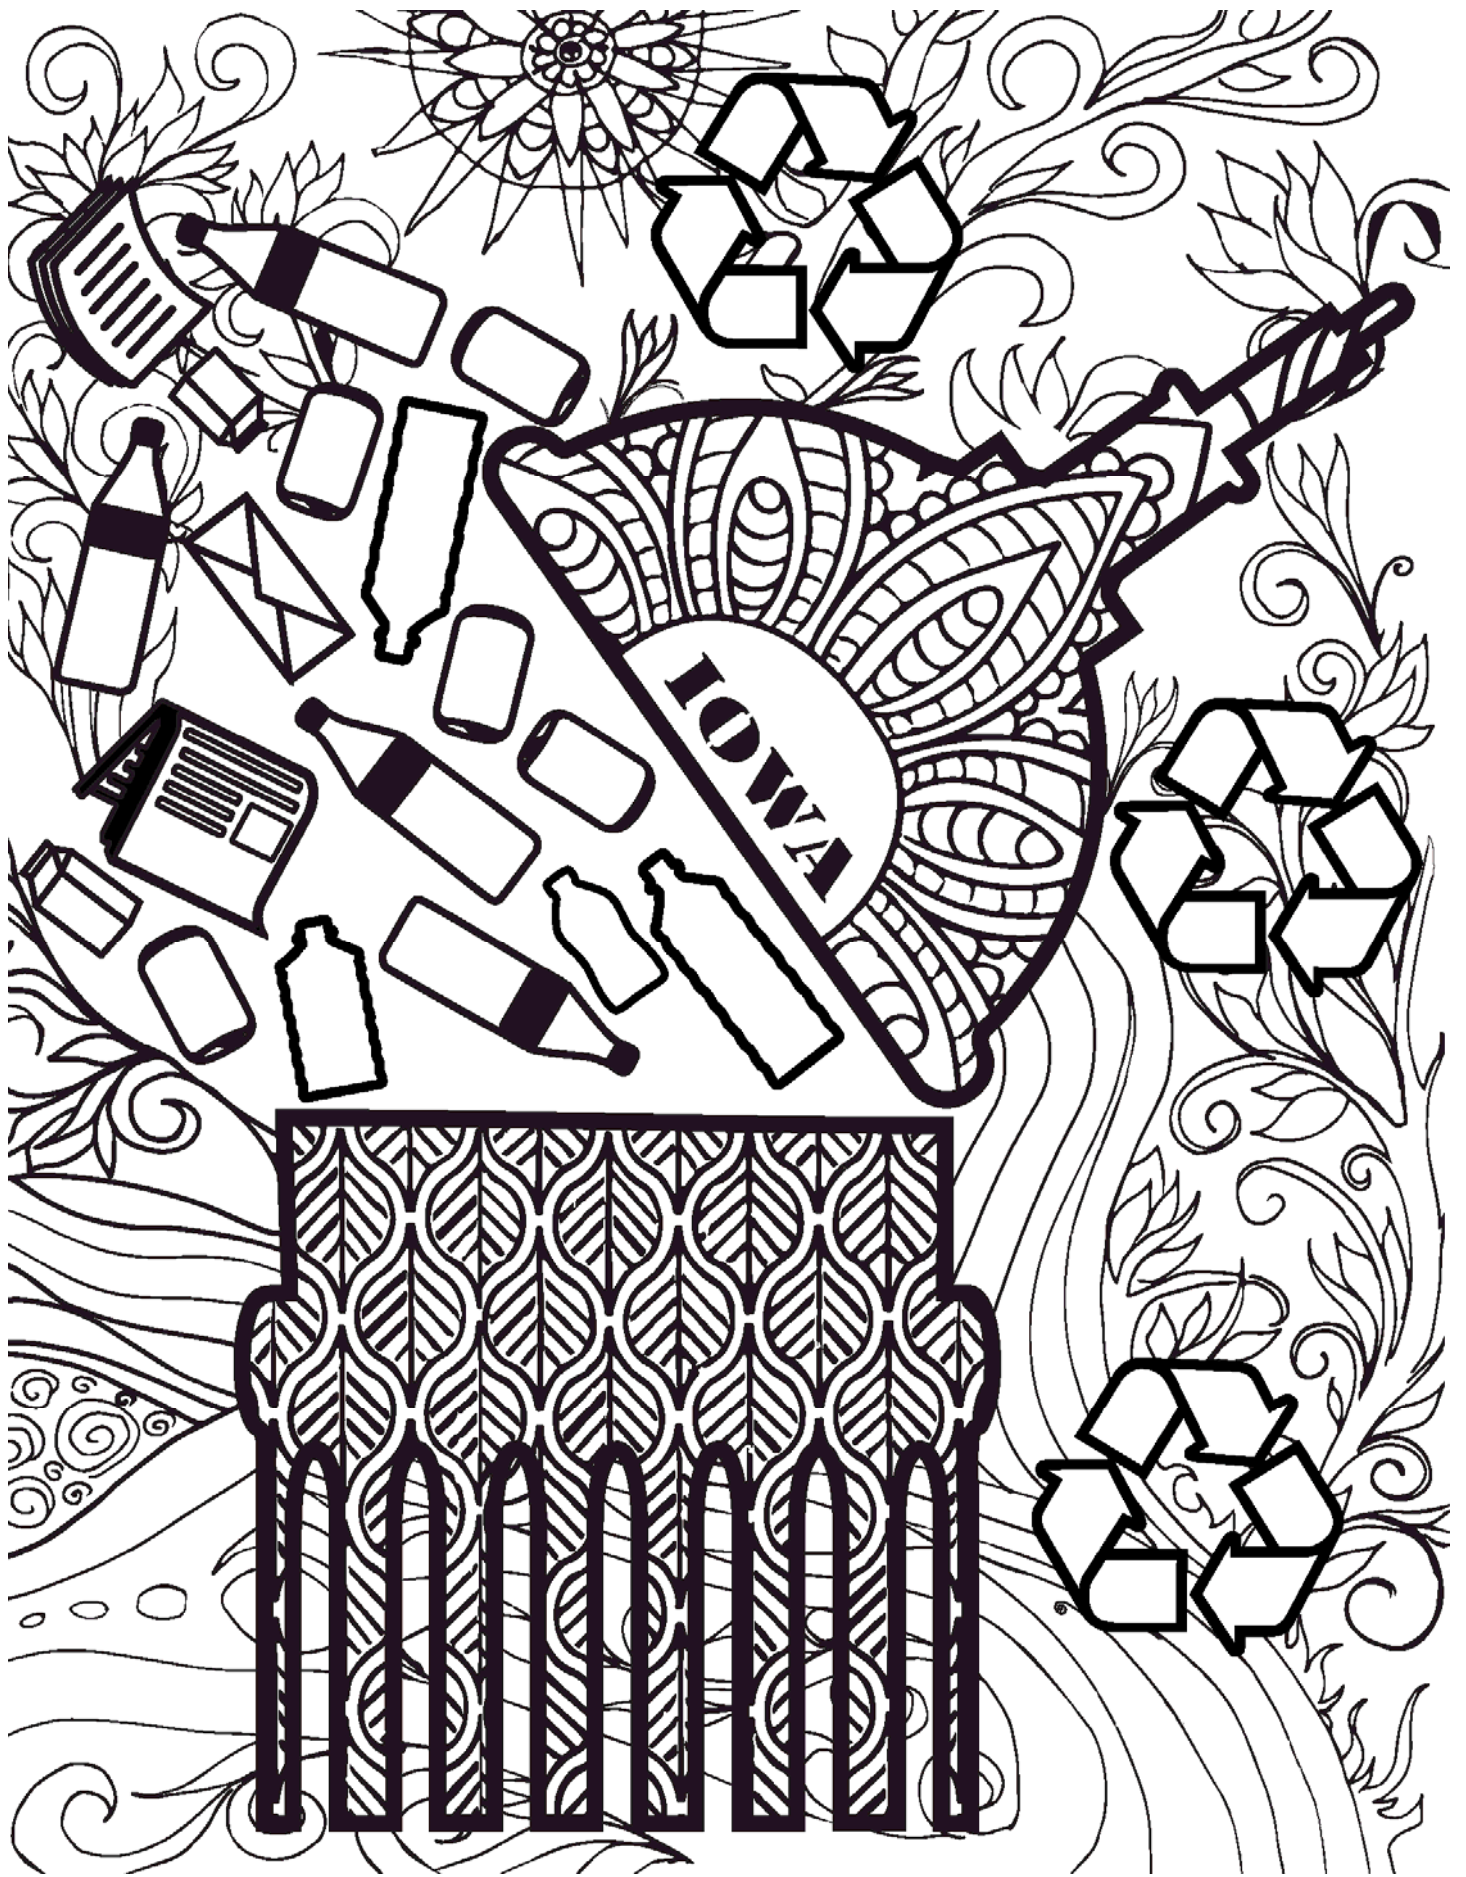

The University of Iowa's Office of Sustainability is pleased to present the UI Zen of Recycling coloring book. We hope that you find peace, comfort, and relaxation while expressing your own artistic talent as you color in these intricate designs. This book will also be available to patients and families at University of Iowa Stead Family Children's Hospital.

We would love to see your designs after they've been colored in. Take a photo of your coloring masterpiece and send it to us at recycle@uiowa.edu or share it on social media and tag us in your photo.

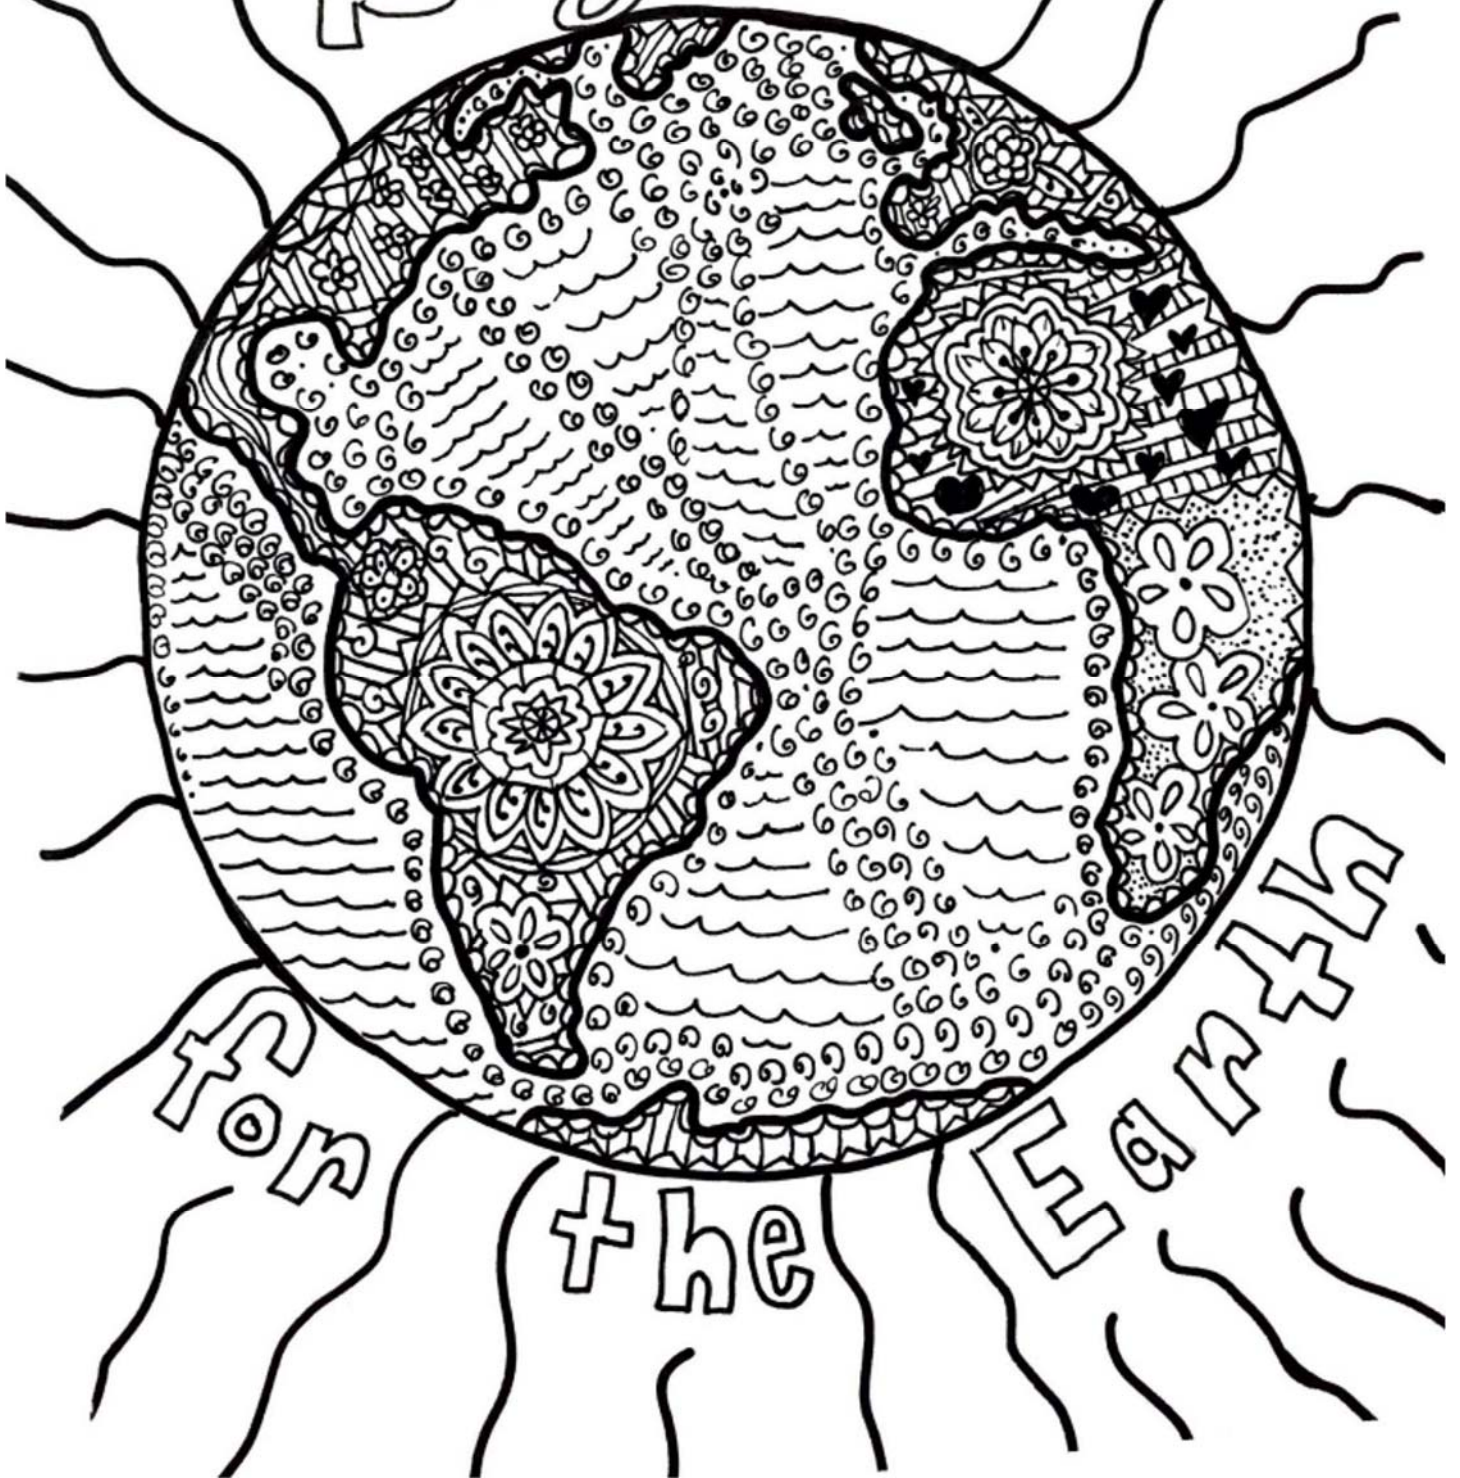

Want to color more? Download a PDF copy of this coloring book and print out the designs you like best at recycle.uiowa.edu.
